Xuân Nhâm Dần 2022/ Lucia Pham

I was inspired by this colour palette, the contrast is strong, and the simple line stand out the designer's style, but considered to our character setting, we were more willing to use nature colour to present.

In this work, I was influenced by their style of making character, and also they use lots of geometry to tell a short story, this also reminds me the character design does not need to be complex.
